Here is additional information for consideration in prioritization of IRIS nominations.
I wouldn't mind a bit if we postpone this meeting from today to next week. We are really out of time!

John,

Attached are three spreadsheets.

The Complete Spreadsheet has all chemicals and all data for 1120 chemicals.
The By Client Need Spreadsheet has only the chemicals that were on the FY 2011 Nominations Spreadsheet.
The By Exposure Spreadsheet has two tabs: Top 25 TRI (Total On- and Off-Site Releases) and CDC (174 chemicals have been measured in some part of the population in at least one sample type).

These should be easy to work with, but if you'd like even further refined versions, just let me know.

Thanks.
